

**NATIONAL PARK SERVICE
GLEN CANYON NATIONAL RECREATION AREA
APPLICATION FOR COMMERCIAL FILMING PERMIT**

In response to your initial inquiry concerning commercial filming at Glen Canyon National Recreation Area, we are enclosing a filming worksheet for you to complete and return to us. It is important that the worksheet be as detailed as possible concerning your proposed activity. For example, we must know where you propose to film, what type of equipment you will use and any special effects you may wish to use. You will not be permitted to arrive and then select locations on the day of shooting. If you are not familiar with the area, it is advisable to make an advanced scouting trip for locations. If you would like a ranger to accompany your scout, you will be responsible for the costs of that service.

The National Park Service staff will use the information on the worksheet to evaluate the impact of your activity on park resources and other visitors. It may require several weeks to review your request and render a decision.

All applicants must submit a \$100 non-refundable application fee with the worksheet, whether or not a permit is issued. If your request is approved, depending on the scope and size of the filming activity, a \$200 administrative charge may be required to cover expenses and a monitor (at \$80/hour with a 3-hour minimum per day) may be required to oversee the activity. Additionally, daily location fees (based on the size of your crew) may apply.

Acceptable forms of payment include company check, certified or cashier's check, money order, cash or credit card (Visa, Mastercard, Discover, American Express, and Diner's Club). Checks should be made payable to the National Park Service.

If your request is approved, a certificate of insurance may be required showing you have general liability coverage in a minimum amount of \$1,000,000 (U.S. currency). The certificate must be written by a U.S. company and must name the United States Government as an additional insured. We will need an original copy of this certificate for our files.

The use of aircraft in connection with this permit may require a Certificate of Waiver, issued by the Federal Aviation Administration, granting a waiver of FAR 91.119, Minimum Safe Altitude. If a waiver is required, a copy of the waiver must be provided to us. Use of helicopters for filming will require a minimum performance deposit of \$25,000 and minimum general liability insurance coverage totaling \$3,000,000.

A performance deposit may also be required in the form of a certified or cashier's check or cash. The amount of the bond will be determined from the information provided on the worksheet. This bond will be returned to you, upon completion of filming, if all accrued costs have been paid, stipulations have been met and the resource has not been damaged.

Please submit the worksheet and the \$100 application fee to the Film Permit Coordinator at the address below. If time is of the essence, you may use Federal Express or UPS.
